= [DT=gbull=L] = Did I say there were people killing us in our country since 9/11? Im just saying we hit them before they hit us again. And the fact that some past injustices we may have caused to them before most of our time mind you, Is no justification for the murder of 3000 Americans. Quit trying to defend terrorists.

this argument makes sense. Ironically, it also makes sense if you turn it upside down.
