Homeyl thought that meant ingame stupid stuff. Still, hes a beta player then you ever will be.

Lol.. So where do you think they use aimbots at? ingame Dumbass. Using an aimbot would ruin the game for those who don't use aimbots.

Just because he can install an aimbot, doesn't make him good at the game.

If he was actually any good at playing the game he wouldn't have any need to make an aimbot would he?
