cowmisfitSmoking Cigs is terribly bad for you, i'll never do that. I hate going to work because all my manangers do is sit in the office and smoke and i hate smelling it, i hate tasting it, i hate breathing it.

Believe it or not, but inhaling the smoke from others who smoke cigarettes is possibly even worse for you than doing it yourself. It's called secondhand smoking, and I suggest avoiding the smell if possible. I'm guessing it can be worse for you than actually smoking cigarettes, mostly because cigarettes have filters and inhaling it from other people is like smoking without the filter.
