csskillerAlmightyHydral take it everyone else gets "Warning: Nod Turret (which sounds like tirrit) Under Attack" when on GDI?!

Uhm,

EVA says the AGT is under attack when on Nod...

EVA says the OB is under attack on GDI...

EVA says the PP is under attack for both teams.

ETC

I can't really see why this is a bug.

yes, but on gdi it says 'warning' for turrets under attack, it should just say turrents under attack. the warning part is only supposed 2 be heard for the team whose structure it is. why would you want to be 'warned' that an enemy structure is being attacked??
