Tried to re-install using the "regedit" trick, downloads fine but will not finish install. See below.

```
"Language ID=0  
English detected  
Removing old always.dbs  
Removing new german always.dbs  
Removing new french always.dbs  
Renaming new english always.dbs  
Now renaming scriptsx.dll to scripts.dll  
error 17"
```

at this point it stops resonding.

Later:(11:40) ok, after trying again it took on the 3rd try and all is well.
