SniprsDude everyone knows that, and that was a terrible way to defend the hand, what if somone came through the top door? You wouldn't h ave seen them disarming mines
Geezus, I thought I was the only person in the entire world that knew how to do that <sarcasm>
my point is: do it in a 40 player game.   My objective was to destroy Hand not defend it and I don't know about you, but I have the sound volume turned up when I play and I would have heard any engineer making an attempt at disarming my C4 :rolleyes:
