IRON-FARTWhere the HELL have you been? Have you had your head in the sand?

A. If you don't want cheaters, use RenGuard. It blocks ALL Renegade cheats.

B. The C130 drop mod has been around since the demo of Renegade came out 3 years ago.

Actually I have found one cheat that claims not to be blocked by renguard that I intend to send to Crimson tonight. I haven't even unzipped it once so I don't know what the contents are.
