My whole points in hosting this post was to EXPLAIN the problem about cheaters on WOL. Precisely on HALF-RG Servers. I am not complaining really but am nearly trying to explore the thought of TOO MANY CHEATERS on WOL. I can't believe that there are so many true gamers out there that won't support someone in an effort to ban or kick cheaters. My second point was that i wanted to send a message to all the cheaters.

Cheating does not make you better. If you want to get better without cheating then play on the big servers alot. One reason why people start cheating is because they get sensitive about the ranks. RANK does not truely matter. Many new renegade players cheat so they are good at the start. Whats the points of cheating and dealing with all the smack talk to you on the servers.

Think about all this very hard.

And i cant beleive that you cant even get support from gamers to ban or kick cheaters.

If you guys support renguard, and trust blackhand studios, then why not support other players on the mission to STOP CHEATERS?

I am not really complaining but nearly explaining the issue that seems to be getting worse.

AND DONT FORGET TO HAVE FUN WHEN PLAYING RENEGADE. I KNOW I DO!
And is there really a reason to keep calling me a n00b and a sucky player spoony?
