If you did watch the UC forums, as i suppose some of you do... you will see that i dont make cheats for myself... i make them for other people...

My .MIX maphacks were probably the only cheat i have really made for myself. And honestly, even though not a secure bypass, the delay of rengaurd detecting the cheats is enoguh for me to play 2-3 games, and then only be kicked so that i can join again and do the same.

Ok you want a reason why we 'cheat', illgive you one... as i know noneof you really know unless you cheat.

We love to see you get pi\$\$ed off at us. Watch you squirm as you try to inevitably regain control of your server, we love to see how long and how much devastation we can cause. I will only talk about renegade and its affiliates in here, not any of the other things i do... Which you will never know...

I wonder if any of you remember 'SEVEN'...? THE INVENTORS OF SSG! WHICH RENGAURD IS A RIP-OFF OF!

SSG = Seven Server Gate, created by [Seven]Ares and [Seven]Eros.

They ae the true inventors of an anti cheat system....not you.

You may have risen to the top of the hill, buton the other side is a steep slope to hell!
