if you putit like that why should i leave...

supposedly, i am;

pathetic
a looser
an idiot
without a girlfriend
someone who mastubates to shemale porn...

etc...etc

ok, as i said before... i wont discuss my life outside renegade, cos u will only think i am flaming...
oh fuck it, why not flame... i wonderif any of you know anything about how a computer really
works... apart from what your standards are... "push button... computer bleeps". no... do any of
you know ASM, VB, C++, binaary, hex, decimal???

shitty example i justcame up with for the UC board...

Decimal - Hexadecimal

Start Number..     5678

5678 / 16 = 354.875 = 354

354 * 16 = 5664

5678 - 5664 = 14 =  E

New Start Number..     354

354 / 16 = 22.125 = 22

22 * 16 = 352

354 - 352 = 2 =  2

New Start Number..     22

22 / 16 = 1.375 = 1

1 * 16 = 16

22 - 16 = 6 =  6

Answer =   E26

Stop thinking you know the meaning of the word hacker... you dont... the meaning itself is quite harmless... in my opinion...

maybe you would think i am calling myself a cracker, now that would be someone you should fear....

i have allready said in the UC forums that objects.ddb "hacks" are not truely hacks, at most the could be called mods, if not cheats...
