my upgrading is not only for renegade, and ofcourse its for unreal tournament 2004, Halfife2 deathmatch, CS source, farcry, doom3, need for speed underground 2, IGI 2 (Covert Strike), and many more games that I have but I dont remeber.

and about the cpu thing, what do you mean that renegade is based on cpu, like as I said I have a P4 3.0Gigahertz. Do you mean this is not enough, and I currently have ati all in wonder 9800 pro 128 meg. and I get 60s fps on 3rd lowest graphics....

so if i buy the ultra or the x800xt, It wont make a difference???

YOUR SCARING ME!!!!!!!!!!!!!!
