Best single card around at the moment is the ATi X850 XT PE. It's actually cheaper than the 6900 Ultra in the UK aswell. If you go for SLi though, on the certain games it does support (which is only like 15 games at the moment) you may find that 2 Ultras to be faster than anything on the market where gaming is concerned. 2 Ultras will put you back £800 in the UK though.
