Subject: Paypal account info

For those of you who recently recieved this email, it is a hoax.

When you click the link, it will re-direct you to <http://217.96.239.183/.secure/>

You can type in any email address and password, and it will forward you onto the next step to which asks you for your personal information.

Just thought I'd warn some of ya!

C Ya

Andy
