CommandoSREveryoneIsn't renegade capable of specular lighing? It would you great if you could have the light effect that sakura's heli had.

It is, but the feature is disabled.The effect on Comance is not specular lighting. It's just a transparent texture wrapped around the model.
What topic showed how you did that to the mammoth tank or could you just post again how you did it, that would be great. Thanks in advance.

NICE MODEL BTW!
