CrimsonUm, I'll probably change it back after a week or so. I don't know though.
NOOOOO

Though Reborn Sucks (Aircraftkiller) needs absolutely no help / support from me ... I find it completely amazing that Reborn Sucks has so many servants. A single word from this amazing man has awesome affects and he even knows what some will write as a response. He's right! If he explains there would be no fun for him and you'll no longer embarrass yourselves & amuse him / us / me. Please don't take me wrong here but, surely some of you aren't this naïve!

This shit is great!
