After reading many Product test, the best are:

PCI-Express= Asus Extreme AX 800 XT Platinum [ATI X800XT] (595Euro)

AGP= Gainward CoolFX Ultra 2600GS [GeForce 6800 Ultra] (855Euro)

These are the Number1 each Category. Price is in Euro, because I´m german.

Anyway, I´m loyal to AMD & Nvidia...
