Thats we're the joke ended and the reality began. I'm not racist against anyone because tahts just stupid. They're is good and bad in every race religion and creed , if i thought otherwise i would say it right now just as i usually speak my mind. He said just before that Islam is peaceful. IT IS NOT peaceful by any means. Is it all bad? No, but sadly a good percentage of the terrorist are islamic and are using they're religion to breed more hate and jihad soilders. THIS is we're i begin hating Islam, they use they're religion to rage war, I've never read the koran nor do i plan too but i just don't understand how sooo many people could belive that crap that god wants you to die to hurt us enless it actually said it.

Silly canadians.
