Okay. I need to know the file names of all the DDS files that make up the Nod buildings. I know the GDI ones but not the Nod. Oh yes one more thing, the file name of the DDS file that is the gray part of the GDI Barracks. I want to make a few skins for these, but I have not found them browsing through the Always.DAT.

If anyone could take the time to list them for me, It would be very great and I would try (somehow) to repay them.
