first off id like to say to anyone who asumingly like to offend and speak badly to others that if you dont have anything reasonable to say and dont want to say it in a CIVILIZED way (thats means no swearing, evil sarcasm or anything else thats not nice)

well now that i said that id like to know if anyone know where i can get a good tutorial (that means that it should be able to teach a idiot how to make it) on how i make working tank treads.

and once again i want a nice polite attitude in this threat.
