SniprsIf you can give me one example of when a transport helicopter or a tyb syd would have any use at all in a small game, ill give you a cookie

Tyb Syd: Short on cash, they've got a flame tank or light tank. Not too bad in that case.

Trans Heli: I give up. I'd only use it as a distraction while the rest of my team were rushing the other side. In which case it is useful...

Is it one of them cookies with hazelnuts in?
