Sniprs!m sure your tyb sydney will do alot of damage aginst a flame tank mate.

Don't waste 150 credits, just repair or try and remote the flame tank. one remote can do more than an entire round of tyb syndeys ammo will on a flame tank.

True. And plus repairing will probably get you enough money to get a rocket soldier, and if you're patient, a LCG or Gunner. Much better against tanks.
