Doitlel could give it a shot there Ob. Do you have any concepts of one?

Well thats easy, the inspiration for this mod was Red Dead Revolver. Even though we arent trying to make it a sequal or a complete port of it or anything, the style is what we are going for.

Thats Red, and he would be great to have modeled. But if thats not your bag, then we need a model that can just be re-textured to make new people, kinda like RenAlert did.
