Issue Type : General Game Functionality
-ZzZ-Always had this issue
-ZzZ-Havnt changed anything
-ZzZ-Operating System ? Win XP
-ZzZ-Specific time the issue occurs , Only on A51 ?

When i try to join [A51], it gives me a error message..

I had a downloaded version before, but now i bought the game with a new cd key, hoping that would allow me on A51, but that didnt worked either.

Does any one knows how to fix the problem:
CD Authentication Failed <--(Error message i get on A51)

Cheers,

Ben
