Ok im making a vehicle a.i. tutorial and i thought i knew how to do it, but now that i tried nothing works. Ive even resorted to making my own script but still the vehicle refuses to shoot and follow a waypath at the same time. One or the other, sure yeah but not both.

Whats the best combination? ive tried:

JFW_Follow_Waypath

JFW_Base_Defence

M00_Follow_Waypath_initiate

JFW_Base_Defence

JFW_Follow_Waypath

M00_Base_Defence

And countless others! arrg.
