A while ago, cncammo.com went down. They had some skins that I made for some people up there. Those skinned ended up looking pretty good. Now I want them back, but I don't know where to get them.

One pack made all the Nod vehicles a nice charcoal grey color. The flame tank had actual flames on the side.

The second pack changed all the Dead-6 members to look blue.

If anyone has these, or knows where I can get them, I'd really appreciate it.

Sorry, I meant to say tex, not skin. Oh, nevermind, no I didn't.

Please don't derail this thread with skin-texture bullshit, because nobody cares. I just want those skins.
