Can someone guide me to a good cd back up software so that i could use to to copy a cd on to my hard drive, other that alcohol 100 something % becuz it give me disk read errors, the reason why i want this is to play YR(yuri's revenge) with out the disk and back up some of my cds which look like they wont last into the year. Thanks. A YR no cd patch would also help to if u could find one.
