Hi all,

Many of you know me for what I used to be and what I was able to do; most things of which I'm not going to mention because its merely the past and nothing to do with the present nor future (mainly DDoS..).

Basically, I stopped messing around with these things many moons ago, and I've just taken the liberty to removing everything illegal from my PC..:

Note that every file in this folder was usually a bot or exploit, something the government would probably want as most things here were private and very few people had..

Removing the files..

Almost destroyed..

Going.. going.. GONE

I'm sure this will make some of you happy and I'm sure you'll sleep better knowing that all this has happened!!!!1oneon

You may now all talk shit about me, I am now indeed defense-less. (Be nice to me... I'm a nice guy really! )

Matt
