AircraftkillerI think all of you should back the fuck out of Florida's business and let us worry about our own.

This is the buisness of all of America when an innocent woman is put into a death camp and being starved to death, then when Your state and the nations fucktard judges agree that's okay to do.

Sniper, how about your fat ass not eat for the next 3 weeks. I bet you couldn't even do till midnight tonight you piece of shit. your going to burn in hell for laughing at that.
