SEALIf you don't have a concrete argument, don't resort to taking whatever my point is and just make me like a 10 year old. All is it says to me is, "I have no point, I'm spamming, so I'll just pretend he's a dumb AOLer..."

If the visitors think it looks cool, then it's great. If one person with 20/15 vision can't see it, maybe he should go see an eye doctor.
