Yeah, and that's why the only people that voted were deth members right? At least be honest with yourself.

Recon Bikes do not win the game for Nod in the beginning. GDI can afford Rocket Soldiers with homing missiles before Nod can afford Recon Bikes... Which doesn't matter too much because Rifle Soldiers or Officers can destroy them easily too. The sniper units do a great job of destroying them, too. A Recon Bike is \$500, a Deadeye is \$500, it only takes a few shots to destroy one.
