Oh yeah...

1. It's in a--won't this surprise you--GLACIER, which means there wouldn't be snow, believe it or not. Yes I know this little fact comes as a shock to you.
  2. Let's see, shitty AI, shitty texturing, shitty models, shitty idea to put snow in. Hey! I found a great unique name for it, "Shitty Map", yes it would fit your version, and it's unique.
  3. If n00b was in the dictionary, your picture would be there.
  4. Wait a second, I hear Webster knocking on your door with a camera to get a picture of you for "theif", "idiot", and some other 5/4 letter words.
  5. Please give me a reason to add more numbers...
