Capt, Kurt --

I, for one - will not host this bastard version of AircraftKiller's map.

You basically took a map - added a few changes - and called it your own.

I see nothing that makes it so much different than the original for you to even assume this is "your" work.

Pushing some meshes up though the ground - and adding a few presets does not make a map yours.

and your justification saying Aircraftkiller "stole" the map from Westwood so that allows you to steal it from him is just hypocritical

that stops anything you say - do - or spaz about less than worthy to listen to.

Suffer the id's

No matter how much your little mind thinks - you cannot defend this...

You have made a fool of yourself and lost any help from me on this forum or any forum.

But then again - what can we expect from someone who's nick is "captkurt" -- very original....

Game over fool - your time is at an end...

Begone you --- I cast my vote to throw you off the island....

BAH!
