here are some customer reviews i've found:

****busteroo****

WHAT IN THE HELL? ITS FULL OF PICTURES OF IDIOTS RUNNING INTO MINEFIELDS AND DYING. THE MINEFIELDS ARE JUST HOARDS OF MINES THROWN IN ONE PLACE IN THE CORNER OF A BASE. IF I WAS ONE OF THOSE PEOPLE I WOULD EASILY RUN BY THEM AND NOT LOOK LIKE A TOTAL TOSSER. THE ONLY THING THIS BOOK TEACHES YOU IS HOW TO LET YOUR OPPONENT INTO YOUR BASE. ALTHOUGH THE COVER ART IS NICE. CAN THE AUTHOR WRITE ABOUT THAT INSTEAD?

****renaddict_4_lyfe****

when I was informed that this book would help even the hardest pros to mine better, I laughed. Then I bought the book and my laughter turned to tears. I can't believe it....all this time, and I thought my mines placed randomly in the field were tripping everyone and saving the base from infiltration. Now every game I'll be mining all 4 corners of my base, 7 mines apiece, sitting back and letting the boinks roll in. thanks cackboy!

well they were all mixed, I think some people liked the book but they didn't seem very bright...is the book really worth it?
