Reading Level?

Transall Saga by Gary Paulsen

Its a middle school book, and im a grown man now but i still say its my favorite.

Hell anything by him is good.

Hatchet - Just about every school in the US has this book as a mandatory read. To be honest i never had an intrest in books until the school forced me to read this.

Brians Return - A sequel to hatchet, Brian returns to the canadian wilderness.

Brians Winter - A Continuation of Hatchet. What would have been if Brian wasnt rescued.

Transall Saga - A boy running across the desert is sent to a unknown world from a mysterious high energy blue light.

Soldiers Heart - Oh man this is a good one, the life of a civil war soldier, this one was so intense i was sweating in class while reading it.

The Car - A younge man builds a car from a kit to go see his uncle.

Dog Song - Cant really remeber too much, but its really good, non-the less

The Island - After a teenager is moved to far away to his new home, he copes with life and makes a small island his own. <-- Really good one

The River - Another Sequel to hatchet

Winterdance - More of an adult book, about the iditerod (<- god knows that isnt spelled right) race in alaska

Woodsong - Really good one, thoug i read it after Dogsong and cant really remeber it either.
