Joeyl know, jsut tryng to tick ack off.... I made many maps befor, 12, all not ment to be "westwood and ack quality" but because of ack they took one look, said POS, and didnt download.

Also, I severly hate ack, period...and yes im within driving distance of you... I wont spraypaint your lawn, but its legal for my to mow it.... hint hint* :twisted:

also, dont call me newb, just cuz i prefer to act like it to tick ACK off doesnt meen i am one...also I have edited, and its not illegal...

It is made with a tool he did not make, for a engine he didnt make, with ideas HE DID NOT make (RA1 models and maps), only be illegal if i sold his maps....

BTW, I said thta about NOD meening the newer EA stuff SINCE renegade....it doesnt matter either, its just a game.... ACK takes it to serious....

ACK, if your gonna do this, you wont get the job, your to ignorent, thats what im trying to say.

You obviously do not understand intellectual copyright laws.
