If you're still looking for someone I may be able to help. I am not excellent in RenX in terms of modeling thats why I focused on learning Level Edit and using scripts. I would be able do the task your asking. I have a bit of free time at the moment so I can help you out. Also if you haven't already made the vis planes I can also do that for the terrain. I mainly do Level Edit suff so i can help ou there a lot. I can understand if you want Halo to do it though.
