Joey

Also, I severely hate ack, period...and yes im within driving distance of you... I wont spraypaint your lawn, but its legal for my to mow it.... hint hint* :twisted:

Destroying his lawn is still vandalism, and that's illegal.

JoeyIt is made with a tool he did not make, for a engine he didnt make, with ideas HE DID NOT make (RA1 models and maps), only be illegal if i sold his maps....

Rather it's illegal or not has nothing at all to do with rather or not you sell it. Stealing games, or other stuff out of a store is illegal if you sell what you stole afterwards, and it's still illegal if you just give it away afterwards.

Everyone owns all copyrights to everything they make.

And yes, he/RenAlertTeam did make those Ra1 models/maps, they didn't pull the models out of Red Alert, or a resource etc.

If you obviously don't know any thing about copyrights, why the hell are you trying to use it in your arguments? It just makes you sound stupid.
