lol, i used 2.1.1 for 15 minutes b4, it didn't have a chance to crash... i found that it DOES crash, i have noticed one thing, the crashing versions of scripts comes with a bhs.dll which doubles in size, i'm gonna try to use the scripts 2.1.2 with the old BHS.DLL... i'll post resault in 20-30 min

fingers crossed

edit: downloaded "Dependency Walker 2.1"
