Quote:hasn't crashed!)

ok heres what i think, cos i ran it with the 2.1.2 scripts and the old BHS.dll == NO CRASH

These things i've tryed:

new bhs.dll + new scripts + RG = fast load + crash

new bhs.dll + new scripts (not running rg) + depends.exe (not shore if depends.exe makes a difference)= fast load (no crash, tested for 45min)

old BHS.dll + new scripts = normal load (no crash, tested for 1 hour)

old BHS + old scripts = normal load (no crash)
