---

HTML has been enabled on these forums for the more than 2 years I've been hosting them. It was enabled because it was the only way to get the old posts from the Westwood-hosted forums to import into these forums correctly. For two years we haven't had a problem with this until some people decided to act like children with a new toy. They will be banned for a week for this. On the other hand, I fixed the bug that allowed them to use HTML tags that were not supposed to be allowed, so when they are unbanned, they won't be able to do it again.
