this post for 2 things...

1. is it possible to put lights on moving vehcles and to make it highlight the terrain as it moves..?

2. anychance somerhino you could add sum lights in the bases of your lovly map Conquest Winter
i love your map the way it is but many people complain it is to dark (teh f00ls)
but if it is possible to make lights on tanks it would be great anyway just asking if it is possible
