Subject: Minor problem...
Posted by Kanezor on Fri, 29 Apr 2005 06:12:50 GMT

I dunno about retail, but mine came OEM. :\

http://www.powerspec.com/systems/system_specs.phtml?selection=9262 <-- my computer specs, plus 1 ATA/133 RAID PCI card, plus 1 ATA/133 250GB HD, replace the default 3.2GHz proc with a faster 3.4GHz proc.

gg. nasty price though..., but at the time i purchased it, i had ZERO time to go looking for the best prices around
