EA-DamageEverythingMy Obelisk is glowing like in SP mode. This can be achieved by a DDS and W3D file that I have.

The Hand from the SP mode would be great and placing the ped into the lake down there makes it harder to sneak in.

I am waiting of a Fanmap which has the big Airstrip from M10/M11. Double it's size and write some scripts. Then 2 C130 Cargos can drop tanks at the same time! Can you...PLEASE send me the glowing DDS file?! or post it publicly?
