Sniper\_De7Actually, it went like so: I joined the game with some name and I was Nod on Under and i was going on the hill and i saw Aeonreapers APC come down the hill (he was GDI) and there was some sniper or something on the edge and he ran towards him and squished him and managed to fall upside down and i fell down with him and he was going towards a tank to remote it and i remotod him once and then again to kill him afterwards he n00bed me for, and i quote, "back attacker" As if using 2 remotes to kill someone and he didn't turn around for either of them wasn't enough warning, but whatever. I explained to him that the negative rec meant so much to me because renegade is my life and since I had 0 recs to begin with (for joining on a different name) That I would have to kill myself. Anyways a little later he left and i called him a douche and he banned me for "come".

Now you may say I was in the wrong but this isn't the first time I've seen Aeonreaper be a complete tart to anyone that plays with him. as one-time i killed his sniper with an apc and he n00bed me for that. So as a moderator one would expect to uphold peace and justice, not cause it. Either way "douche" is not banning material, i do say. So if you think that's reason to ban someone then someone needs to find moderators who aren't inspired by Adolf himself.

Punctuation please or hi mom look out for where is the today is Thursday.

But guys, I gave up on clans long before they became unpopular. I never saw the point in them. I do see the point in clans for game types such as MMORPGs though.
