Yeah, I totally go along with the plan of smoother gameplay and stuff but I think if people cannot be bothered to get CP1 when that has smoother gameplay and better maps with extras(voice messages and so on) but if CP2 is just a few bugs fixed then I don't see people without CP1 downloading it.After all it's such a big file-cough cough if you have a rubbish system cough cough.I'm sorry but if people don't want to download CP then they can go to hell for all i care.It's because of people like that, that the community is reducing.So suck on those apples.
