Not to bad,I tried it and I liked the maps alot:o.As of for "mod" gameplay it seemed mostly like sounds.I think if you spent time on it you could get it somewhere just need to mod it some more,and add in some more sexy maps.Also if you would like I can upload this to an ftp I have access to([www.stackout.com](http://www.stackout.com)).His has a much faster download and it's where I host my mods.
