---

I was VERY bored today so I decided to make a comic strip using HL2 charactures.

This first one is just me practising using some of the tools on Garry's Mod. These were done using Microsoft Paint, I will have Photoshop tomorrow so if I make any more they will be of far better quality. Also since making these comics I have found out how to remove the crosshair, weapon etc.

Vortigaunts do the Village People:

Public Health Warning

<Toolstyle: Get's bored easily>
