http://www.freewebs.com/renegade_me

I am the concept artist and the "idea guy". I am in need of:

Modellers/Skinners
Texturers
Coders/scripters
Animaters

People who can help me getting this mod
running, people who have knowledge gained by
previous mod projects, or anyone else who can help me with it.
I have got alot of concept art done, but it isnt online YET.
I have got a extensive tech-tree up. Contact me for
more info: ffx_matias@hotmail.com

Okay...

I don't know if I should say this, but just join a mod that needs a concept artist if you feel your
concept art is good. No one is really modding Renegade to a huge extent anymore
