I was not trying to bother yóu.

But this happenbed to me for at least the 4rth time.

I played a nice Renegde Game, and 30 mins the thing appeared: u are not using rg; PL DL @.....

This makes me not want to play no more, if I have to reinstall the Game every 3 days!

Don't feel stressed, (this is normal) lol, i always liked ur work.- this just doesn't fit at all.

It destroys the whole game to me....

Have a nice time,

Simon
