AircraftkillerFox, it wasn't _that_ hard to figure out what these clowns were up to. Although I didn't think dethmadx would sink that low to try and skew the poll results just to somehow (God only knows how) spite me... But here we are! "Stop your so called whining, don't put up any opposition to our blatent disregard of fair voting practices so we'll win no matter what!"

I really don't see the problem here? it's a poll so we can vote on something. And DethMadx asked us if you would like to vote. If we had the thought that Tropics is better we would surely have voted on that one. But me does more like Deth_river. That is why we voted. if you want your tropics to be in get your ppl in here and vote....!;

(nice quote in your sig btw)
